DRYWORK STACKER

Finally, an end to manual stacking!

FlexStack RO processes up to 2,000 pieces per hour. This unit automatically folds, counts and flat stacks small drywork linens such as washcloths and small towels. The unit individually stacks items measuring up to 14" X 24" and creates up to two folds in larger items. The high-speed retracting conveyor accurately transfers each article onto a self-adjusting vertical lift. The **FlexStack RO** is the perfect solution for laundries looking to deliver high-quality stacks at an affordable price.
